What?

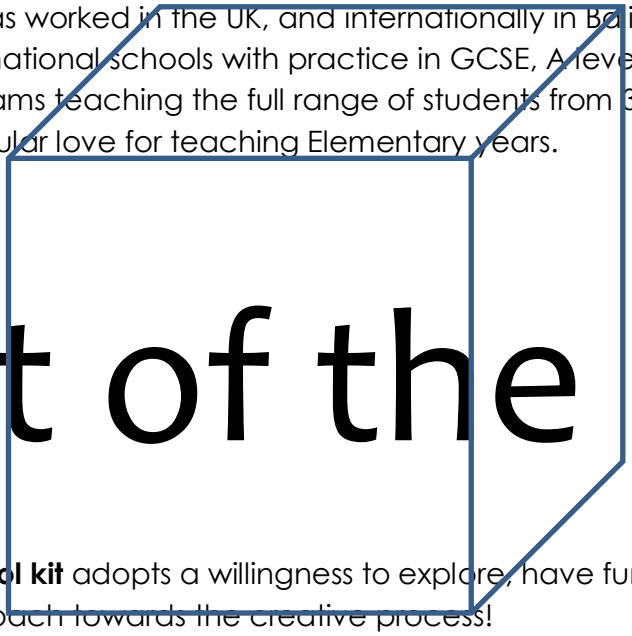
Out of the Box- introduces an alternative approach to making and creating! While also helping to improve fine motor skill development and thinking/ problem solving skills for your child.

Out of the Box- comes concepts that are not always product driven, activities also value the importance of process through experience.

Out of the Box- sometimes brings surprise elements!

Out of the Box-will supply most materials but occasionally your child will be asked to source a particular material, thus engaging them more fully in the creative process and perhaps encouraging more of a dialogue with you.

Out of the Box - Brings Helen Campbell with 20 years of teaching Art experience to your child. She has worked in the UK, and internationally in Bali, Vietnam, and Japan teaching in International schools with practice in GCSE, A level, AP, IB, and Montessori programs teaching the full range of students from 3 year to 18, with a focus, and particular love for teaching Elementary years.



Out of the Box-Tool kit adopts a willingness to explore, have fun and possess a responsible approach towards the creative process!
